Directors' report

Disclosure of information to the auditor

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the company's auditor is unaware; and
- the directors have taken all the steps that they ought to have taken as a director in order to be aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

Greenhouse gas emissions, energy consumption and energy efficiency action

During the current period the Group has purchased electricity from two energy suppliers which has totalled 30,466 kWh for the period 1 April 2020 to 31 March 2021. As a result of usage this year, the Group has taken the exemption from the full reporting on greenhouse gas emissions as permitted by The Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018 Part 7, Schedule 7 due to energy consumption in the UK being below 40,000 kWh. We do however note that from the energy consumption noted above, this is translated into an intensity ratio of 0.09 tCO₂e/employee using the conversion factors for UK electricity (location-based methodology), gas and other emissions published by the Department for Environment, Food and Rural Affairs for 2020-21.

We note that due to the Covid-19 pandemic, the UK offices have been closed since March 2020 and all equipment that was not needed was switched off for this time which has resulted in a significant drop in energy consumption and no other direct energy savings measures have been completed during this period. We would expect to report full disclosures in the year ended 31 March 2022
