

MARKET & OPINION RESEARCH INTERNATIONAL LIMITED
DIRECTORS' REPORT (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2020

continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

The environment scope of disclosures

These disclosures are made in accordance with Streamlined Energy & Carbon Reporting guidelines. The data included for the year 2020 and will form the base year for future comparison due to this being the first year that M&ORI has been subject to the SECR requirements.

The data covers energy usage across all UK entities in M&ORI. Energy usage from subsidiaries outside of the UK are outside the scope of this report and therefore excluded from the figures below

UK energy use

Consumption in metric tonnes CO₂e	2020
Scope 1 – direct emissions	1,078
Scope 2 – indirect emissions	772
Scope 3 – other indirect emissions	961
Total consumption in metric tonnes CO₂e	2,811
Energy usage in kWh	2,684,861

Efficiency ratio:

	2020
Emissions in metric tonnes CO ₂ e per UK employee	1.84

Methodology

We have followed the guidance to the SECR in making these disclosures.

During FY20, M&ORI and related group undertaking have occupied six separate offices in the UK. We have used reasonable estimates to calculate our energy usage.

Energy efficient action taken

We have changed how we work to lessen our impact on the environment. Some examples from our offices are:

- Replacement of conventional lights with LED lights where possible
- Installed motion sensors for lights where possible
- Majority of our servers are outsourced thus saving energy. However, a few of our servers are located in the London office will be phased out in the future.
- Temperature control by using summer/winter modes to reduce energy wastage
- Company policy to turn off the monitors after work
- Reduce printing and more focus on electronic storage
- Using electronic signatures over hard copy documents where possible
