

United Living Group Limited

Directors' report (continued)

Streamlined energy and carbon reporting

The report and tables below are consolidated reports for the group.

Energy performance

<i>Energy Consumption (kWh)</i>	2021	2020
Total	5,030,183	7,471,344

Carbon performance

<i>Carbon Dioxide Equivalent Emissions (t/CO_{2e})</i>	2021	2020
Scope 1 & 2 emissions	989	1,390
Scope 3 emissions	240	590
Total	1,229	1,980

Intensity ratio

<i>t/CO_{2e} per £100,000 revenue</i>	2021	2020
Scope 1 & 2 emissions	0.27	0.55

Energy efficiency action taken includes:

- Following a review of existing energy suppliers our fixed offices are now supplied with electricity by Scottish & Southern Energy. The Electricity Supply to the fixed offices is from 100% sustainable sources.
- As part of our commitment to reduce carbon emissions from our commercial fleet vehicles, we have purchased our first electric van.
