
F. Duerr & Sons Limited

**Directors' Report (continued)
For the Year Ended 31 March 2021**

Greenhouse gas emissions, energy consumption and energy efficiency action

The Company's greenhouse gas emissions and energy consumption are as follows:

	2021	2020
Emissions resulting from activities for which the Company is responsible involving the combustion of gas or consumption of fuel for the purposes of transport (in tonnes of CO2 equivalent)	2,241	2,363
Emissions resulting from the purchase of the electricity by the Company for its own use, including the purposes of transport (in tonnes of CO2 equivalent)	1,215	1,113
Energy consumed from activities for which the Company is responsible involving the combustion of gas, or the consumption of fuel for the purposes of transport, and the annual quantity of energy consumed resulting from the purchase of electricity by the Company for its own use, including for the purposes of transport, in kWh	17,398	17,611

The data was collaborated by an appropriately qualified professional and calculated using the 2019 UK Government environmental reporting guidance, utilising current published emissions factors from Database 2019, Version 1.01.

The company is looking to improve its energy efficiency further by continuing the process of installing more efficient LED lighting, monitoring steam boiler usage and water usage, and improving site awareness of energy efficiency.

Management have chosen to disclose CO2e/tonne as their relevant ratio. In 2021, this was 83.1kg CO2e/tonne (2020: 108.05).

Disclosure of information to auditors

Each of the persons who are directors at the time when this Directors' Report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the Company's auditors are aware of that information.
