

CASTLE VIEW CORPORATE HOLDINGS LIMITED

DIRECTOR'S REPORT (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2021

Energy and carbon reporting

This section has been prepared in accordance with our regulatory obligation to report greenhouse gas ('GHG') emissions pursuant to The Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018 which implement the government's policy on Streamlined Energy and Carbon Reporting.

The table below shows our GHG emissions for the financial year 2020/21 (April 2020 to March 2021).

<i>Energy consumption</i>	kWh	kWh
Aggregate of energy consumption in the year		
- Gas combustion	155,451,320	
- Fuel consumed for transport	359,060	
- Electricity purchased	37,188,151	
		192,998,531
<i>Emissions of CO2 equivalent</i>	Metric tonnes	Metric tonnes
Scope 1 - direct emissions		
- Gas combustion and fuel consumed for owned and leased vehicles	28,572.00	28,572.00
Scope 2 - indirect emissions		
- Electricity purchased		7,896.00
Total gross emissions		36,468.00
<i>Intensity ratio</i>		
tCO2e/facility/yr		222

Quantification and reporting methodology

The group has followed the 2019 HM Government Environmental Reporting Guidelines. The group has also used the GHG Reporting Protocol – Corporate Standard and have used the 2021 UK Government's Conversion Factors for Company Reporting

Intensity measurement

The chosen intensity measurement ratio is total gross emissions in metric tonnes CO2e per facility per year, being the number of facilities where Everyone Active is responsible for emissions managed on 31st March at the end of the reporting year relative to Scope 1 and 2.

Measures taken to improve energy efficiency

Everyone Active is committed to investing in its assets to improve operational performance and support its local authority partners to decarbonise. Everyone Active is currently developing an environmental strategy to support its local authority partners in their push towards net-zero and will be publishing its GHG emission strategy. Everyone Active acts as a long-term tenant in local authority facilities, as such the strategy has been developed as a two-prong approach. A focus on scope 1 & 2 operational emissions in local authority facilities has been developed alongside a corporate strategy covering scope 1,2 and 3 emissions from the support hub and corporate functions.
