
MOWI Consumer Products UK Limited

**Directors' report
For the year ended 31 December 2020**

	2020 (kWh)
The total consumption (kWh) figures are as follows:	
Scope 1	
Gas consumption	2,102,159
Transport fuel consumption (diesel at 1ltr = 10kWh)	478,770
Total Scope 1	2,580,929
Scope 2	
Electricity consumption	9,385,668
Total Scope 2	9,385,668
Scope 3	
Reimbursed fuel consumption from business travel	0
Total Scope 3	0
Total energy consumption (kWh)	11,966,597
	2020 (tCO _{2e})
The total gross emissions (tonnes of CO_{2e}) figures are as follows:	
Scope 1	
Gas consumption (0.184Kg CO _{2e} per kWh)	386.8
Transport fuel consumption (2.64Kg CO _{2e} per litre)	126.4
Total Scope 1	513.2
Scope 2	
Electricity consumption (0.256Kg CO _{2e} per kWh)	2,402.7
Total Scope 2	2,402.7
Scope 3	
Reimbursed fuel consumption from business travel	0
Total Scope 3	0
Total gross emissions (tCO_{2e})	2,915.9

Methodology

The Company used the HM Government Environmental Reporting Guidelines: Including streamlined energy and carbon reporting guidance (March 2019), and the UK Government GHG Conversion Factors for Company Reporting document (2020) for calculating carbon emissions. The source data consisted of supplier invoices and company records. Where data was obtained in litres used and distance travelled, these conversion factors were used to convert to kWh.
