

Trowers & Hamlins LLP (Partnership Number: OC337852)**Energy and Carbon Report**

Year ended 31 March 2021

Parameter	Units	Current reporting year	Comparative reporting year
		01/04/20 - 31/03/21	01/04/19-31/03/20
Energy consumption used to calculate emissions	kWh	2,765,751	5,572,890
Emissions from combustion of gas (Scope 1)	tCO ₂ e	28	295
Emissions from combustion of fuel for transport purposes (Scope 1)	tCO ₂ e	-	-
Emissions from purchased electricity (Scope 2)	tCO ₂ e	558	886
Emissions from business travel (Scope 3)	tCO ₂ e	79	117
Total emissions:	tCO₂e	665	1,298
Intensity ratio: Total emissions / Total Office Floor space	tCO₂e/m²	0.046	0.090
Quantification and Reporting Methodology	<p>This report has been prepared following the <i>GHG Reporting Protocol – Corporate Standard</i> and using the guidance set out in <i>Environmental Reporting Guidelines: Including streamlined energy and carbon reporting guidance – HM Government (March 2019)</i>.</p> <p>Energy consumption data has been sourced from utility supplier invoices, or where this is not available calculated from site-based records and travel expense data.</p> <p>Conversion from energy to emissions was completed by application of the relevant emissions factor from <i>UK Government GHG Conversion Factors for Company Reporting</i> for the appropriate year.</p>		
Energy Efficiency Action	<p>Since our last SECR report in 2019/20 where we replaced one of two main chiller units, in 2020/21 we have replaced the second chiller unit. This is expected to yield further efficiency benefit and therefore energy and emission savings alongside the first unit.</p> <p>Going forward into the 2021/22 financial year, a plan has been created to change all existing lighting to high efficiency LED luminaires.</p>
