Methodologies for energy and emissions calculations

The calculations have been produced for the group's transport with the support of specialist fleet software. The other values have been sourced from the group's energy bills.

The use of vehicle telematics, the interactive driver behaviour training programme, selection of company vehicles and sophisticated fleet software is used to help ensure the group minimises emissions and makes efficient use of its fleet energy. Further details of the group's policies to protect the environment are covered in the environment report.

Employment of disabled persons

The group gives full consideration to applications for employment from disabled persons where the requirements of the job can be adequately fulfilled by a handicapped or disabled person. Where existing employees become disabled, it is the group's policy wherever practicable to provide continuing employment under normal terms and conditions and to provide training and career development and promotion to disabled employees wherever appropriate.

Employee involvement

During the year, the policy of providing employees with information about the group has been continued through internal media methods in which employees have also been encouraged to present their suggestions and views on the group's performance. Regular meetings are held between local management and employees to allow a free flow of information and ideas.
