* Scope 1 covers direct emissions from owned or controlled sources. Scope 2 covers indirect emissions from the generation of purchased electricity, steam, heating and cooling consumed by the reporting company. Scope 3 includes all other indirect emissions that occur in the Company's value chain.

Methodology

The figures above represent the Company's energy use and associated Green House Gas emissions from electricity, fuel and waste for the financial year. We have followed the reporting guidelines from the Department for Environment, Food & Rural Affairs (DEFRA) along with any data provided by external providers.

Energy Efficient Action

syncreon has partnered with a leading "Certified B" lighting and technology company, to target our primary environmental aspect of energy consumption and subsequently reduce our carbon footprint. The first step was to upgrade to energy efficient LED lighting and has achieved a reduction in 72% kWh in Hinckley and 55% kWh in Lutterworth. syncreon is also committed to reducing the amount of general waste by increasing the amounts that are sent for recycling.

Disclosure of information to auditor

Each of the persons who are Directors at the time when this Directors' Report is approved has confirmed that:

- so far as the Director is aware, there is no relevant audit information of which the Company's auditor is unaware, and
- the Director has taken all the steps that ought to have been taken as a Director in order to be aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Auditor

The auditor, Deloitte LLP, will be proposed for reappointment in accordance with section 487 of the Companies Act 2006.
